HaiKoo®

Unique oval pan feeding system for broilers

HaiKoo®

1 Fantastic start up of day-olds

- A low pan edge for easy access to the feed.
- The large feeding surface offers optimal eating comfort. 360° flooding keeps the HaiKoo-pan full of feed.
- The special grill design keeps young birds out of the pan from 10 days onwards.
- With feed slots to attract birds.

2 Excellent control over feed costs

- The unique, patented, HaiKoo-pan with high anti-waste rim eliminates practically all feed waste, even from day one.
- The control unit ensures a fast and frequent delivery of fresh feed, leading to superior hygiene and outstanding feed conversion rates.
- Handy feed level adjustment ring. (A)
- The deep feed trough in the pan keeps feed central.
- The special cone wings prevent birds from flicking the feed. (B)

HaiKoo®

3 1140 mm of feeding space

- Offers up to 14% more birds per pan than most standard broiler pans. (C)
- Ideal for heavy broilers.
- Ideal for controlled growth through light scheme feeding, mealtime feeding and restricted feeding.
- Ideal for increasing the stocking density without having to add feeder lines (e.g. when switching to tunnel ventilation and pad cooling).

4 Easy to clean and durable

- Open structure with a smooth, closed rim for easy cleaning with a high pressure cleaner. (D)
- Hinged pan. Made of highly durable plastics to resist all commonly used cleansing agents. (D)
- A 10-year-warranty (*) on the pans and augers. (* Degressive warranty)
