

THE TOTAL PACKAGE

The true value of a building company isn't measured only by how long their products stand...but by how long they stand behind their products.

For over 20 years Sentinel's™ success has hinged on building customer relationships as strong and enduring as our high-quality steel buildings. We sweat the details so you don't have to, and Sentinel buildings are designed for quick and easy installation, saving time and money on the back end and making Sentinel buildings comparable in total cost to many "lower-priced" competitors. The end result is a hassle-free experience and finished product that's easy on your eyes, easy on your bank account, and designed and built with your input to meet your needs for years to come.

And when it comes to service, it's good to know that Sentinel doesn't run from problems – they fix them. Sentinel

customers are considered customers for life, and we go to great lengths to make sure you never have a reason to go anywhere else.

So compare Sentinel with any steel building manufacturer. Talk to your friends. Talk to your neighbors. You'll find lots of companies that sell quality steel buildings...and lots that don't... but none that offers the total package of quality, value, service and support after the sale that has made Sentinel Building Systems one of the most trusted – and most often recommended – brands in the business.

Sentinel Building Systems™
Rock Solid.

Quality. Versatility. Value.

Every Sentinel building is engineered to your exact specifications

Optional cupolas made from 29 gauge pre-painted steel in choice of three popular sizes

Acrylic coated 26-gauge Galvalume roof panels for exceptional corrosion protection in the harshest environments

Reinforced structural framing available to support installation of additional equipment such as overhead cranes

Optional roof and wall insulation packages and/or thermal energy systems with insulating values to R-38 in the roof and R-25 in the walls

Sentinel buildings are designed for fast and easy installation, substantially lowering total project cost

Optional roof vents and louvers improve interior air flow while moderating inside temperature variances

Beefy 8" - 12" roof and wall supports provide superior strength and stability

Highest quality painted finish with 30-year warranty for superior protection

Built-up steel frames with a minimum of 50,000 psi yield strength

Rugged 26-gauge steel wall sheathing with 80,000 psi yield strength

Standard 1-1/4" foam closures effectively seal Sentinel buildings from moisture, dirt and rodents

Optional contrasting wainscot panels add distinction and value while enhancing the appearance of any structure

Optional light panels for roofs and walls add interior light and warmth

All Sentinel framed openings are fully flashed for added protection while providing a clean, finished appearance

Contrasting fully-flashed color trim is standard on all Plainsman buildings

Wide choice of high-grade insulated pre-hung or ready-to-assemble access doors

Loading/Equipment doors in wide range of sizes and configurations including overhead, sliding, bi-fold and hydraulic

Fully insulated fixed and sliding windows in choice of sizes, shapes and finishes

Optional overhangs, gutters and downspouts offer attractive, durable functionality in a multitude of colors

Optional deluxe trim package provides a virtually "chew-proof" barrier against insects and small animals

Choice of Built-Up or Wide-Flange structural beams in building widths up to 150 feet

Optional interior lining packages offer a more finished appearance and insulation protection, while optional partition walls provide interior design flexibility

Building Frame Options

Sentinel offers a variety of structural frame options for maximum stability in all climates and terrains.

Offering all the quality and durability of Sentinel's popular Plainsman™ – but without the bells and whistles – the Pioneer is Sentinel's smaller building alternative for customers that want Plainsman quality, but at a value-price. By using smaller, less costly components and scaling back on non-essential features and trim, the Pioneer meets your stringent requirements while delivering the structural integrity and attractive, clean lines that Sentinel buildings are famous for.

Pioneer's innovative design and Sentinel's engineering prowess proves it's possible to cut costs without cutting corners.

Why sacrifice quality for price when Pioneer gives you both? Contact Sentinel Building Systems or your authorized Sentinel dealer for more information on this rugged and affordable alternative for your steel building needs.

Equally at home on the range or anywhere it's needed, the TrailBoss is Sentinel's versatile structure that protects your crops and other valuable assets from harsh weather conditions.

Made with heavy gauge, weather-resistant Galvalume roofing panels and rugged steel beam main frames, the TrailBoss can be open on four sides or partially enclosed to suit your needs. Only a simple foundation is required, and building size and configuration are easily adapted to your specific operation.

Don't risk losing your hard-earned assets to the elements, when the TrailBoss is the simple and sturdy solution that provides maximum protection for a minimum cost.

Features & Accessories

Sentinel offers a wide array of quality features and optional accessories to improve functionality and enhance your building's appearance. Choose from a multitude of color and trim options to create the perfect blend of form and function. Contact a Sentinel Building Consultant or talk to your authorized Sentinel dealer for details on these and other popular selections.

Wall & Roofing Panels

Sentinel buildings come standard with heavy-duty 26-gauge roof and wall panels, available in a Bare, Siliconized Polyester (better) or Kynar (best) finish. Panels come in a variety of profiles, colors and warranty options that offer outstanding beauty and long-term protection.

Windows

Add light and warmth to your building with strategically placed windows. Fixed and sliding windows are available in a variety of sizes and trim packages, and can be ordered either pre-hung or ready to assemble on site.

Interior Finishing

Finishing the inside of your building with steel liner panels adds style and energy efficiency. Roof and wall liner panels are available in 26 or 29-gauge in your choice of standard colors. Liner panel packages come complete with trim and fasteners for installation.

Overhangs, Gutters and Downspouts

Protect your foundation and property from erosion and water damage while beautifying your structure with optional overhangs, gutters and downspouts. Made from light gauge materials and available in many attractive trim colors, these systems are hemmed for a strong, smooth and corrosion-resistant edge for years of beautiful functionality.

Wainscot

Optional wainscot in contrasting colors can give your building a highly distinctive feel and enhances the appearance of any structure. Sentinel offers several different wainscot style and application methods to suit virtually any style and budget.

Doors

Whether you need just a simple access door or multiple loading/equipment bays, Sentinel's wide range of insulated and non-insulated door types and styles can be sized and configured to your exact specifications.

Insulation

Sentinel offers laminated fiberglass blanket insulation in a variety of thicknesses and R-value ratings, as well as thermal-efficiency systems for both interior walls and ceilings that provide a more finished appearance while helping to make the building quiet and comfortable.

Exterior Facades

Sentinel offers a variety of Canopy, Mansard and Parapet exterior options that can add a distinctive flair to your structure while providing added surface for signage.

ROCK SOLID

Sentinel Building Systems is known as the “rock solid” company. And this is no self-proclaimed title, but one given to us over the years by our customers. It’s a term used to describe Sentinel by a number of different people for a number of different reasons, and we thought we’d share some of those reasons with you.

Rock Solid Buildings

Nobody ever told us they regretted purchasing a Sentinel building, but we’ve heard from bunches of folks who wished they had. Sentinel buildings use only the finest and most durable materials and components available, and are designed with your input to be beautiful, functional and --pound-for-pound and dollar-for-dollar -- the best value for your money in the industry.

Rock Solid Company

Sentinel Building Systems has been an industry leader for more than 20 years and, just like our buildings, isn’t going anywhere. Sentinel believes the only way to be successful long-term is to treat customers fairly, deliver quality products for a value price and to do exactly what we say we’re going to do.

So far, so good.

Rock Solid Relationships

You don’t realize how important service is until you partner with someone who doesn’t offer it.

Sentinel takes its business – and customers – very seriously. Maybe it’s the small town culture where neighbor helping neighbor is the rule and not the exception, or maybe it’s just pride in doing a job well, but Sentinel takes a personal interest in every building we sell and goes to great lengths to make the entire process smooth and hassle-free from start to finish.

Rock Solid Support

Sentinel buildings are known for durability and ease of installation, but what truly sets Sentinel apart is commitment to customer support. From Building Consultants that design maximum functionality at minimum cost to Authorized Dealers and Customer Service Teams that make sure your project goes exactly as planned, nobody stands behind its products or provides ongoing support better than Sentinel...and isn’t that what you really want from your building provider?

You’ll live with your building choice a long time. Make sure it’s a choice you won’t regret. Get all the facts first. Contact Sentinel or talk to your authorized Sentinel Dealer and discover why Sentinel Building Systems is your **Rock Solid** choice.
